The Crittenden Press

ISSUED WEEKLY.

R. C. WALKER, Publisher.

For Congress.

To the people of the First Congressional District of Kentucky: I am a candidate for a seat in the 58th Congress and earnestly desire your votes for the place.

Grateful beyond words for your past kindness, I promise, if elected, to endeavor by a faithful discharge of duty, to prove how much I value your continued favor. Your interests demand that I remain, for the present, at my post of duty, consequently I will be deprived of the opportunity of making a thorough canvass of the District as I should like to do.

My candidacy is subject to the action of the Democratic party. Respectfully,
W. J. STONE.

The Judicial District.

According to the latest report from Frankfort the work of re-districting this end of the State has been agreed upon. The fourth district will be composed of Livingston, Crittenden, Caldwell and Hopkins counties.

Gen. Alger has announced that he is in the field against Mr. Harrison.

There are a great many larger states than little Rhode that will follow the example that she has set in some particular.

Congressman Springer has been at death's door for several days, but the latest news are favorable for his recovery. He is afflicted with erysipelas of the head.

The free coinage of silver bill will be considered in the House on the 22nd. The vote fixing a day for discussing this question was spirited but showed that the silverites have a handsome majority.

Now comes the news that the Democratic and People parties in Kansas are arranging for a combine this year. There is not much of a Democratic party in Kansas now, and after the combination is worked there will be less.

Some of the Frankfort solons want to invite Senator Hill to address the Legislature. Doubtless the Senator could give them a few pointers on machine work that would be valuable to those who want to be re-elected.

Proceedings have been instituted against the lories in this State. But few people in this portion of the state know that there are such barnacles on the body politic of this state, but there are two, the Henry Female College and the Frankfort lories.

It is pretty well understood that the Hon. J. K. Hendrick, of Smithland, will be in the Congressional race this fall. He is the most aggressive fighter of the quartette mentioned in connection with the race, and from present appearances one is safe in predicting that this is going to be a warm, pretty run from start to finish.

It is said that the members of the Legislature want the State Convention at Frankfort. The said members have enough to do without holding the convention for the masses. Louisville is the place to hold the convention, and if the Legislature wants to attend they may do so, provided they will take a back seat and not draw any per diem while in attendance. Carle's and Cleveland's conventions this year and they want breathing room, which can not be had at a country village like Frankfort.

Saturday evening near Mt. Vernon, Ky., Isaac Snodgrass shot and killed his brother Enos; two years ago the murdered killed Snodgrass brother.

W. J. Stone Announces.

In this paper is a card of Congressman W. J. Stone announcing himself a candidate for re-election. His faithfulness as a Representative is so well known and appreciated by the people that words from us on that line would be superfluous. That he has been a capable as well as an untiring public servant goes without saying. No man in congress has been more devoted to his duties.

Hopkinsville and Elton have just finished a fight for a branch of the Vanderbilt University, with the latter as winner. Morgansfield, Sturgis, and Henderson are each contending for a Baptist College; Princeton has a college, and a number of the Purchase towns have colleges, while Marion is apparently not in it. We have a fine Academy, but numbers of young men and ladies go annually to other places to finish their education. This is not as it ought to be; Marion is a fine, healthy location, and is surrounded by a people and a country that would support a college. Let us have one.

THE LATEST NEWS.

At Memphis nine deputy sheriffs went to a negro grocery to arrest some lawless negroes; they were attacked by a mob armed with shot guns. After a fight in which three of the officers were wounded, seven of the negroes were taken prisoners.

Seeing the President.

Saturday afternoon, 3 o'clock, on Feb. 20, as I was crossing Pennsylvania Avenue, to enter the Corcoran Art Gallery, I noticed in front of the War Department a vast concourse of people.

Curious to know the meaning of the gathering, I mounted the steps in front of the Art Gallery, and from there I could see a densely thronged quadruple (it seemed) line of men and women.

The head of the line was at the door of the White House, the rear was fully 800 yards behind at the N. W. corner of the War Department. The column was continually growing by additions to the rear end; and the whole was under the supervision of policemen. The movement of the column was barely perceptible. Those in front were shaking hands with President Harrison and those in the rear were patiently waiting to do the same; and glad it seemed of the privilege even to wait; for it is not every week one may shake hands with the President of the United States.

Some of our young people explored a cave last Sabbath that promises to rival anything yet discovered in Southern Kentucky. The location of the cave has been known for many years, but owing to the descent being about 75 feet nearly perpendicular, no one wanted to try it.

The descent was successfully made as above stated. When the parties finally reached a level, they found a large and roomy cave. They cannot tell anything about how far this cave extends; in one room was found what seemed to have been where a fire had been built, how long ago no one can tell; the walls still show the effects of the smoke. Preparations are being made for a further exploring, when we will give you a general description of it.

ALL RIGHT.

The Onerous Freight of the Railroad Reduced.

Last week the merchants and shippers of Marion and vicinity were put in a cheery mood by the receipt of a new railroad freight schedule, making marked reduction in all the classes of freight. Mr. Mitchell, the general freight agent of the road, was in town Saturday, mixing with and talking to the merchants in a way that is calculated to establish and maintain the most amicable relations between the road and the people. The rates from Evansville to Marion, according to the new schedule, are as follows:

First class, 38c
Second class, 32c
Third class, 27c
Fourth class, 24c
Fifth class, 21c
Sixth class, 18c

The rates from Louisville to Marion are as follows:

First class, 46c
Second class, 39c
Third class, 34c
Fourth class, 29c
Fifth class, 26c
Sixth class, 23c

The classification under the N. N. & M. V. differs materially from the classification made by the O. V., and it is claimed that when the two are compared, the N. N. & M. V. is much more favorable to the shipper than the O. V. For instance under the former sugar was in class four and the rate from Louisville was 29 cents; now it is in class six and the rate is 23 cents. Numerous other articles are likewise changed in the classification, and upon the whole, it is claimed by the road that the rates are even lower now than before the recent increase which changed the route of shipment from the road to the river. It is a fortunate thing that Marion is near the Ohio river, for without the advantage of this competition, the road would have its own way. Let Congress continue to improve our water ways.

A Hung Jury.

The jury in the Thomas case at Morganfield was dismissed Saturday after having the case for ten hours, and failing to agree. Ten were for conviction and two for acquittal. Powell, and county attorney Davis for the Commonwealth. It is said to have been the greatest array of legal talent connected with one case in the court for many years.

One of the leading members was called upon to express his views relative to the matter. He said: "If you feel that appearing before the dazzling foot lights, in fanciful costumes, is advancing the cause of Christ, there can be no objections." After speaking some moments in this strain, the pastor, who came in, was asked for his views. When he had finished expressing them, never another word was said about the stage as an adjunct in raising funds for church purposes.

J. Deboe, chairman of this District, for a District Convention to be held at Princeton, Ky., on the 9th day of March, 1892, for the purpose of selecting delegates to attend the Republican National Convention which convenes in Minneapolis on the 7th day of June, 1892.

3rd. Resolved, That we highly indorse, heartily approve and have a right to be proud of the present administration of President Harrison, and do believe that he has in every honorable way tried to carry into effect the principles declared and adopted in the Republican platform of 1888, and in so doing has given us an honest, upright, clean and wise administration.

4th. That our delegates to the District Convention be and are hereby instructed to cast their vote for W. J. Deboe for chairman of the District Committee and for O. R. Baker, of Caldwell county, and A. D. Cossy, of Graves county, as delegates from this District to attend the National Convention at Minneapolis.

5th. That our delegates to the State Convention be and are hereby instructed to cast the vote of this county for Hon. John Feland, George Denny, W. O. Bradley and A. T. Wood as delegates from the State at large to the National Convention at Minneapolis.

8th. That we approve of the administration of the revenue service in this district by Hon. John Feland, collector, and condemn the action of a few disappointed place-seekers in their efforts to cast discredit upon him.
